No. 1908 of 1911 - 1912.

Report on the Savanur 1st Grade A v. School, inspected  
by the - Deputy Educational Inspector, Dharwar on 13th, 14th, 1911.  
and 15th September

1. Building and  
equipment

The school has an excellent building built  
by the State. It is well ventilated and has  
sufficient light and accommodation. It is well equipped with  
the necessary school furniture, books, maps and charts.

2. Attendance including  
Regularity of attendance.

The No. on rolls last year was 110 and  
this year shows an increase by 28. The  
average monthly No. on rolls during the 12 months was 132.5  
and the average daily attendance 107.2. The attendance and ~~regularity~~  
regularity of attendance may be said to be good. There are in  
all 18 Mahomedan boys in the school.

3. Adequacy and qualifications  
of Teaching staff.

The Head Master is a Graduate in arts  
and the 1st Assistant a P. E. The 2nd  
and 3rd and 4th Assistants are Matriculates and the new hand  
teacher of Persian, is an unpassed man. The Drawing Master holds  
a 3rd Grade Arts certificate and the Gymnastic teacher is a 1st  
class certificated man. The staff is adequate and well qualified.

4. Range and quality of education given.

The first five Anglo-Vernacular standards are taught. The school was examined in detail, and the progress made on the whole found to be fair. The defects have been noted in the Inspection Reports and the Masters' attention drawn to them.

5. Discipline and conduct of students.

F a i r.

6. Provision for recreation and physical education

A first class certificated man is in charge of this Department of education. There is a well built gymnasium, furnished with the necessary apparatus. The state has given the school a spacious open ground specially prepared for the boys to play cricket, foot-ball and other native games, not far from the school.

General Remarks and recommendations.

The Head Master has fairly managed the school. There is co-operation and harmony between the Head Master and his assistants. The Diwan, Mr. Mangalwedhekar, takes a keen interest in the school matters and is ever ready to supply the wants of the school. Had it not been for the outbreak of plague which has scared away nearly 57 p.c., of the total No. of boys on rolls, the school would have shown better results.

## General remarks and recommendations by the Inspecting Officer:

year shows an increase of 28. The progress made on the whole is fair. The school has been given an additional Assistant as suggested last year. Drawing drill and Gymnastics are fairly attended to. English reading and history and Geography in the IV and V Standards require more attention. Exercise and GY books fairly kept. Play has broken out and the boys are leaving and hence the low number of boys present at the examination.

Date: 9 Sept. 1911  
Sir,  
I have the honor to report that the State of the schools in respect of the attendance of pupils as reported in the official No. 98 dated 25 Sept. has not since been improved. Contrary to the expectation of many people of this town about a fortnight ago, and unfortunately for them, it appears that the infection of plague has been running spare all along and that now it has spread almost throughout the whole town. Under these circumstances it also appears objectionable that boys from different parts of

of the town should meet at  
one place. <sup>11 PM</sup> Therefore think  
that a time has come when it  
may be seriously considered  
whether it is not a matter of formal  
declaration of the actual state  
of things, as also, in the interests  
of the people at large, the school  
should be closed for a reasonable  
period of time ~~to come~~ <sup>to come</sup> even in  
unpleasant like Bury and ~~to come~~  
not to speak of towns of lesser  
importance - it is essential to the  
schools and colleges under like  
circumstances.
